I. General Introduction

This Training Guide has been written to assist you in understanding the Citizenship and Place of Birth Procedures Manuals.

It is to be used in conjunction with the Citizenship Procedures Manual (CIT-1) and the Place of Birth Procedures Manual (POB-1).

For each category of response presented in the Procedures Manuals, there is a corresponding chapter in this Training Guide which contains exercises on the procedures involved in resolving a response.

You will find that many chapters in this guide pertain to the procedures for resolving both Citizenship and Place of Birth responses. This occurs because the Citizenship and Place of Birth variables consist of many of the same response categories for which the procedures for resolving a response are very similar (although not identical). Therefore you must always refer to **both** your Citizenship and Place of Birth Procedures Manuals while completing the training exercises.

The purpose of the exercises is not to test your memory, but to give you a chance to apply the procedures.

When you have completed the exercises, your group will participate in a review and discussion of the exercises and the answers with your supervisor.

II. Introduction to the Citizenship and the Place of Birth Variables

Read Chapter I – Introduction to the Citizenship Variable in your Citizenship Procedures Manual, and Chapter I – Introduction to the Place of Birth Variable in your Place of Birth Procedures Manual, then return to this guide to complete the exercises.

Exercise 1

Identify whether the following categories of responses may be encountered while coding the Citizenship variable (C), the Place of Birth variable (P), both of these variables (B), or neither of these variables (N).

- (a) Responses of "Stateless" / "Apatrides" _____
- (b) Other categories of responses _____
- (c) Abbreviated responses _____
- (d) Responses of "Same" / "Même", "See Person 1" / "Voir
Personne 1" or "Same as Person 1" / "Même que Personne 1" _____
- (e) Responses of "Canada" or "Canadian" / "Canadien" _____
- (f) Responses of "Dual Citizenship" / "Double citoyenneté" or a
response of a province or territory _____
- (g) Multiple responses _____
- (h) Pseudo-countries or responses of regions or continents _____
- (i) Misspelled responses _____
- (j) Single (standard) responses _____
- (k) Cultural responses _____
- (l) Special responses _____

Exercise 2

Complete the following steps for Automated Coding by Text Recognition (ACTR) returned phrases:

- (a) If a phrase is returned by ACTR, then _____ the response to be coded, starting with the first phrase, to determine if it is a suitable _____.
- (b) If a match is found, then verify that the code description at the _____ of the screen matches the _____.
- (c) If the code description does not match the response, then determine if the _____ phrase returned by _____ can be selected.
- (d) If _____ match is found in the list which ACTR has returned, or the message "ACTR list may be outdated" appears, then type, _____ and _____ the code or _____.

III. Standard Process Flow – Single Responses

Under normal processing conditions, there are specific circumstances which will routinely occur.

Now read Chapter II – Standard Process Flow – Single Responses in your Citizenship and Place of Birth Procedures Manuals, then return to this guide to complete the exercises.

Exercise 1

Match the following items with the appropriate letter in the coding, cultural and mobility screens shown on this and the next page:

- _____ Write-in response
- _____ Phrase(s) returned by ACTR
- _____ Position the respondent occupies on the questionnaire
- _____ PERSNR
- _____ Code
- _____ Citizenship
- _____ Place of Birth
- _____ Immigrant Status
- _____ Year of Immigration
- _____ Mother Tongue
- _____ Home Language
- _____ Ethnic Origin
- _____ Mobility 1 Year Ago (Place of Birth only)
- _____ Mobility 5 Years Ago (Place of Birth only)
- _____ Relationship to Person 1
- _____ Other household members' responses

Exercise 2

Answer True (T) or False (F) for each of the following statements:

- (a) You can only use the Citizenship Code List to code a Citizenship response. _____
- (b) When coding a Place of Birth response, you can browse other household members' responses to the Place of Birth question. _____
- (c) When no phrases are returned by ACTR, refer the response to the next level of coding. _____
- (d) When coding a Citizenship or Place of Birth response, you should browse all the cultural responses provided by the respondent. _____
- (e) Responses made up of more than one word are not valid. _____
- (f) When coding a Place of Birth response, you should browse other household members' responses to the cultural questions. _____
- (g) Home Language is one cultural variable which can be browsed when determining the correct code to be used. _____
- (h) If a code is found, you must refer the response to the next coding level. _____
- (i) If a phrase is returned by ACTR, you must compare the phrase with the response to be coded to determine if it is a suitable match. _____
- (j) Coding of multiple responses follows the same coding procedures as that for single-word responses. _____

Exercise 3

List the variables you can consult when coding a Citizenship response.

- (a) _____
- (b) _____
- (c) _____

- (d) _____
- (e) _____
- (f) _____

Exercise 4

Place the following steps for coding a Standard Process Flow – Single Response for Place of Birth in the correct order:

- ☐ Determine if the response represents a single or multiple response.
- ☐ Examine the response to be coded and verify if there are any ACTR returned phrases.
- ☐ Browse the other household members' responses to the question.
- ☐ Consult the Place of Birth or Citizenship Code Lists and Reference Codebook to find a code.
- ☐ Study the relationship between the other household members' responses to the question and the respondent's answers to the cultural and mobility questions.
- ☐ Browse the respondent's answers to the cultural and mobility questions.
- ☐ Consult reference material to see if the reported response can be located.
- ☐ Type the code.
- ☐ Validate the code.
- ☐ Commit the code.

Exercise 5

Using the screens on this and the next page, identify the variable to be coded, assign a code to the reported response and document the corresponding code description. Write your answers in the space provided on the next page.

IV. Misspelled Responses

The second category of response you may encounter is a misspelled response.

Now read Chapter III – Misspelled Responses in your Citizenship and Place of Birth Procedures Manuals, then return to this guide to complete the exercises.

Exercise 1

Complete the following steps for coding a misspelled Citizenship response, and place them in the correct order.

- (a) ☐ Consult the _____ Code List and _____ Code Book to find the correct spelling of the response and to determine the correct _____ to be assigned.
- (b) ☐ Type the code.
- (c) ☐ _____ the response to be coded.
- (d) ☐ Browse the respondent's answers to the _____ questions.
- (e) ☐ Verify if there any phrases returned by _____.
- (f) ☐ _____ the code.
- (g) ☐ Browse the Citizenship responses provided by the _____ to see if they have a similar response which is correctly spelled.
- (h) ☐ Validate the _____.

Exercise 2

List the missing steps to be followed in order to properly assign a code for a misspelled Place of Birth response.

Step 1

Examine the response to be coded. Verify if there are any phrases returned by ACTR at the top of the screen.

Step 2

Step 3

Browse the Place of Birth responses provided by the other members of the household to see if they have a similar response which is correctly spelled. Look up the response in the Place of Birth Code List and the Reference Code Book.

Step 4

Step 5

Step 6

Consult the reference material (e.g. atlases) to see if the place of birth reported can be located.

Exercise 3

Circle the correct answer. To find the correct spelling of a Citizenship response, you should first consult:

- (a) the List of Pseudo-countries and Regions or Continents
- (b) the Citizenship Code List and Reference Code Book
- (c) an atlas
- (d) other household members' responses to Citizenship

Exercise 4

Using the following screens, identify the variable to be coded, assign a code to the response reported and document the corresponding code description. Write your answer in the space provided on the next page.

V. Abbreviated Responses

The third category of response you may encounter is an abbreviated response.

Now read Chapter IV – Abbreviated Responses in your Citizenship and Place of Birth Procedures Manuals, then return to this guide to complete the exercises.

Exercise 1

Indicate in the space provided whether the steps shown below should be followed when coding a response for the Place of Birth or the Citizenship variable, then place the steps in the correct order.

Variable: _____

- ☐ Browse the respondent's answers to the cultural questions.
- ☐ Type, validate and commit the code.
- ☐ Verify if there are any phrases returned by ACTR.
- ☐ Examine the response to be coded.
- ☐ Consult the List of Pseudo-countries and Regions or Continents.
- ☐ Determine if the full response exists in the Citizenship Code List or the Reference Code Book.
- ☐ Browse other household members' responses to Citizenship.
- ☐ Expand the abbreviated response to its full form.
- ☐ Study the relationship between the abbreviated Citizenship response and the cultural responses.

Exercise 2

- (a) In which reference list are the most common abbreviated Place of Birth responses listed?
- _____
- _____
- (b) Once you have expanded the abbreviated Place of Birth response, determine if the full response exists in the _____ Code List and the Reference Code Book.
- (c) **True or False:** If the full response and code are not found you can browse the Place of Birth responses provided by the other members of the household. _____

Exercise 3

VI. Responses of "Same" / "Même", "See Person 1" / "Voir Personne 1", or "Same as Person 1" / "Même que Personne 1"

The fourth category of response you may encounter is a response of "Same" / "Même", "See Person 1" / "Voir Personne 1", or "Same as Person 1" / "Même que Personne 1".

Now read Chapter V – Responses of "Same" / "Même", "See Person 1" / "Voir Personne 1", or "Same as Person 1" / "Même que Personne 1" in your Citizenship and Place of Birth Procedures Manuals, then return to this guide to complete the exercises.

Exercise 1

Complete the following steps for resolving a response of "Same" / "Même", "See Person 1" / "Voir Personne 1" or "Same as Person 1" / "Même que Personne 1".

- (a) ☐ _____ the code.
- (b) ☐ _____ the response to be coded.
- (c) ☐ If a code was assigned then type the _____ code for the _____.
- (d) ☐ Identify the _____ / _____ or manual code which has been assigned for _____.
- (e) ☐ Validate the _____.

VII. Pseudo-countries or Responses of Regions or Continents

The fifth category of response you may encounter is pseudo-country or a response of a region or continent.

Now read Chapter VI – Pseudo-countries or Responses of Regions or Continents in your Citizenship and Place of Birth Procedures Manuals, then return to this guide to complete the exercises.

Exercise 1

Circle the correct answer. Which of the following steps is **not** part of the procedures for coding a pseudo-country or a response of a region or continent?

- (a) If more than one check-box is marked, refer the response to the next level of coding.
- (b) Browse the Place of Birth or Citizenship questions for a marked check-box.
- (c) If one check-box is marked, type the corresponding code.
- (d) Examine the response to be coded.
- (e) Verify if there are any phrases returned by ACTR.

Exercise 2

Answer True (T) or False (F) for each of the following statements:

- (a) If there are no marked check-boxes you should browse other household members' responses to the cultural questions. _____
- (b) If there are no phrases returned by ACTR you should refer the response to the next level of coding. _____
- (c) If the respondent has indicated the response "Canada", you should refer the response to the next level of coding. _____
- (d) If one check-box is marked, type the corresponding code. _____
- (e) You should assign the code 731 for the response "Korea", "South Korea" or "North Korea". _____
- (f) If the response "Ireland" is reported, you should refer to the next level of coding because "Ireland" is a pseudo-country. _____
- (g) If more than one check-box is marked, you should assign the code corresponding to the first marked check-box. _____
- (h) "People's Republic of China" is a specific geographic area, and should receive the code 727. _____
- (i) If the respondent has indicated the response "Southern Europe", you should refer the response to the next level of coding. _____

VIII. Multiple Responses

The sixth category of response you may encounter is a multiple response.

Note: The procedures for resolving a multiple response are different for the Citizenship and Place of Birth variables. Part A will refer to the Citizenship variable and Part B will refer to the Place of Birth variable.

Part A – Citizenship Multiple Responses

Now read Chapter VII – Multiple Responses in your Citizenship Procedures Manual, then return to this guide to complete the exercises.

Exercise 1

Answer True (T) or False (F) for each of the following statements:

- (a) Multiple responses should always be referred to the next level of coding. _____
- (b) A multiple response is a response which could be assigned two or more codes. _____
- (c) The code 994 should be assigned for the response "Canada and the United Kingdom". _____
- (d) You must compare the multiple response reported to the List of pseudo-countries and Regions or Continents before committing a code. _____
- (e) The procedures to follow for resolving a multiple response are the same as those for resolving a single response. _____

Exercise 2

Mark an "X" in the space provided **before** each of the following statements which represents a multiple response. Indicate the corresponding code in the space provided at the **end** of the response, or mark an "R" if the response should be referred to the next level of coding.
